# RETRACTION: Synthesis of Mesoporous Silica and Graphene-Based FeO and ZnO Nanocomposites for Nutritional Biofortification and Sustained the Productivity of Rice (*Oryza sativa* L.)

Journal of Nanomaterials

Received: 30 March 2026 | Accepted: 30 March 2026

RETRACTION: S. A. Durgude, S. Ram, R. Kumar, et al., "Synthesis of Mesoporous Silica and Graphene-Based FeO and ZnO Nanocomposites for Nutritional Biofortification and Sustained the Productivity of Rice (*Oryza sativa* L.)," *Journal of Nanomaterials* 2022, no. 1 (2022): 5120307, <https://doi.org/10.1155/2022/5120307>.

The above article, published online on 26 April 2022 in Wiley Online Library ([wileyonlinelibrary.com](http://wileyonlinelibrary.com)), has been retracted by John Wiley & Sons Ltd. The retraction has been agreed due to figure concerns. Specifically:

- Unexpected similarities were noted between Figure 2E,F;
- Unexpected similarities were noted between Figure 3E,F;
- Unexpected repetitive elements were noted within the images in Figures 2 and 3;
- Discrepancies were noted between the published images and the original, unedited photos for Figures 2 and 3.

As such, the results presented in this article cannot be considered as reliable. Therefore, the article must be retracted.
